Pipeline Safety: Regulations Implementing Memorandum of Understanding With the Department of the Interior

AGENCY: Research and Special Programs Administration (RSPA), DOT.

ACTION: Direct final rule.

SUMMARY: This direct final rule (DFR) would implement a provision of a December 10, 1996, Memorandum of Understanding (MOU) between the Department of the Interior (DOI) and the Department of Transportation (DOT) regarding Outer Continental Shelf (OCS) pipelines by redesignating the point at which an OCS pipeline is subject to RSPA regulations. Under this rule, RSPA would establish and enforce design, construction, operation, and maintenance regulations and investigate certain accidents for all pipelines located downstream of the point at which operating responsibility for the pipelines transfers from a producing operator to a transporting operator.

DATES: This direct final rule takes effect March 19, 1998. If RSPA does not receive any adverse comment or notice of intent to file an adverse comment by January 20, 1998 the rule will become effective on the date specified. RSPA will issue a subsequent notice in the **Federal Register** by February 17, 1998, after the close of the comment period, to confirm that fact and reiterate the effective date. If an adverse comment or notice of intent to file an adverse comment is received, RSPA will issue a timely notice in the **Federal Register** to confirm that fact and to withdraw the DFR in whole or in part. RSPA may then incorporate the adverse comment into a subsequent DFR or may publish a notice of proposed rulemaking.

ADDRESSES: Written comments on the subject of this DFR may be submitted to

the Dockets Facility, U.S. Department of Transportation, 400 Seventh Street, SW, Plaza 401, Washington, DC 20590-0001. Comments should identify the docket number of this DFR, RSPA-97-2096. Persons should submit the original and one copy. Persons wishing to receive confirmation of receipt of their comments must include a stamped, self-addressed postcard. Alternatively, comments may be submitted via e-mail to le.herrick@rspa.dot.gov. The Dockets facility is open from 10:00 a.m. to 5:00 p.m., Monday through Friday, except on Federal holidays.

FOR FURTHER INFORMATION CONTACT: L.E. Herrick, (202) 366-5523 or e-mail le.herrick@rspa.dot.gov regarding the subject matter of this DFR, or the Dockets Facility, (202) 366-5046, regarding copies of this DFR or other information in the docket.

SUPPLEMENTARY INFORMATION:

Background

Under an MOU dated May 6, 1976, RSPA regulated hazardous liquid, carbon dioxide, and natural gas pipelines located downstream of the outlet flange of each facility where hydrocarbons are first produced or where produced hydrocarbons are first separated, dehydrated, or otherwise processed, whichever facility is farther downstream. DOI regulated those pipelines located upstream of this point. The Departments agreed to change this regulatory boundary with the signing of the December 10, 1996, MOU. The 1996 MOU was the result of negotiations that began in the summer of 1993, which included a high degree of participation from the regulated industry. RSPA and DOI's Minerals Management Service (MMS) solicited public comments on a draft MOU through a joint **Federal Register** notice (60 FR 27546; May 24, 1995). The notice also announced a public meeting at the MMS Gulf of Mexico regional office in New Orleans, Louisiana, on August 1, 1995, to discuss the proposal. Over 70 people attended the meeting, which generated over 100 pages of comments from natural gas and petroleum trade organizations; natural gas and oil exploration and production companies; transmission companies; offshore construction companies; and industry consultants. Twenty-three individuals and organizations submitted written comments on the **Federal Register** notice. A transcript of this meeting and copies of the comments are available in Docket No. RSPA-97-2096.

In May 1996, RSPA and MMS met with an industry workgroup representing OCS oil and natural gas producers and transmission pipeline
